## Archives of Toxicology

Official Organ of EUROTOX

Edited on behalf of the Deutsche Gesellschaft für Pharmakologie und Toxikologie  
and the Deutsche Gesellschaft für Rechtsmedizin

Founded in 1930 by H. Wieland with the backing of the Deutsche Pharmakologische Gesellschaft. Vols 1-14 published under the title "Sammlung von Vergiftungsfällen", Vols 15-27 published under the title "Archiv für Toxikologie" and edited as follows: Vols 1-4 by H. Fühner, Vols 5-15/2 by B. Behrens, Vols 15/3-16/1 by B. Behrens and K. Wagner, Vols 16/2-22 incl. by B. Behrens, H. Oettel and K. Wagner, Vols 23-28 incl. by D. Henschler, Vols 29-36 incl. by W. D. Erdmann, Vols 37-55/2 by H. Froberg, as of Vol 55/3 by H. M. Bolt. Publisher: F. C. W. Vogel, Leipzig-Berlin; from Vol 11 (1941) Springer, Berlin.

### Copyright

*Submission of a manuscript implies:* that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis), that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e. g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on micro-film, in electronic data base, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

*Special regulations for photocopies in the USA:* Photocopies may be made for personal or in-house beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0340-5761, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel: 613-993-9251; Fax 613-952-8243; e-mail: cisti.docdel@nrc.ca).

 Red blood cells 526

- Relative intensity 127
- Renal and hepatic microsomes 346
- Renal cell cancer 291
- Renal deposition of mercury 722
- Renal toxicity 59
- Resilience 526
- Respiration 322
- Respiratory effects 215
- Retinoic acid 572
- Retinoids 368
- Retrograde axonal transport 705
- Rhesus monkey 379
- Route of administration 18
  
- S27 118
- Sarin 644
- SCE frequency 280
- S-conjugate-mediated nephrotoxicity 99
- Scorpion envenomation 575
- S-(1,2-Dichlorovinyl)-L-cysteine 99
- S-(1,2-Dichlorovinyl)-L-homocysteine 99
- sec-Butyl alcohol 617
- Selenium metabolite 312
- Selenium 228, 312
- Selenocystine 312
- Semiconductor 59
- Senecio jacobaea 725
- Seneciophylline 725
- Sensory irritation 579
- Serotonin 677
- Serum 379
- Serum tryptophan 73
- Sister chromatid exchange 505
- Smooth muscle 197
- Solvents 410
- Soman neurotoxicity 384
  
- Somatostatin 52
- Species differences 677
- Spontaneous activities 608
- Static diffusion cell 649
- Steroid 509
- Styrene-specific mercapturic acids 300
- Styrene 300
- Sulfate ester of
  - 1,4-dihydroxynaphthalene 362
- Sulfur-containing compound 127
- Synaptosomes 410
  
- T kininogen 318
- Taurine 111
- 2,3,7,8-TCDD 259
- TCDD 271
- TCDD 87
- Teratogenicity 572
- tert-Butyl alcohol 617
- Testicular toxicity 209
- Testis 111
- 2,3,7,8-Tetrachlorodibenzo-p-dioxin 73, 79, 87, 271, 677
- Tetraethoxysilane 59
- 2,3,5,6-Tetramethyl p-phenylenediamine 111
- Thermal decomposition products 215
- Theta polymorphism 505
- Thiram 690
- Time course study 59
- Time profiles 540
- Tissue distribution 271
- TNF- $\alpha$  132
- Tobacco glycoprotein 149
- Tobacco toxicity 149
- Tobacco-specific nitrosamine 14
- Toluene 337, 431
  
- Toxicity hr locus 87
- Toxicity of mixtures 579
- Toxicity 397, 547, 559
- Toxicokinetics 18, 271
- Toxicology review 509
- Transcutaneous absorption 568
- Transforming growth factor 259
- Transport system 533
- 1,1,2-Trichloro-3,3,3-trifluoro-1-propene
- Trichloroethene 291
- Triphenyl phosphite 705
- Tryptophan 677
- Tryptophan 2,3-dioxygenase 73
- TTCA (2-thiothiazolidine-4-carboxylic acid) 185
- Tube formation 357, 718
- Tumor necrosis factor 259
- Tunisia 552
  
- UDP-glucuronosyltransferase 242
- UK-61,260 698
- Uptake 533
- Urinary marker 111, 209
- Urinary metabolites 540
- Urine 14, 712
  
- Valproate 572
- Vascular haemorrhage 698
- Verapamil 603
- VERO cells 624
- Vestibulotoxicity 431
- Visual evoked potentials 337
- Vitamin C radical 318
- Vx 565
